

Château *de*  
**Puymartin**

# INTRODUCTION

A silent witness to the conflicts that shaped Périgord, it is a discreet storyteller... Yes, it is in an intimate setting that the outlines of this stone jewel take shape, with the appearance of a fairytale castle.

Steeped in unmatched Romanticism, it is its modernity that ensures its legacy. Visitors don't just explore six centuries of history—they are immersed in a mystical atmosphere where legends blend seamlessly with historical reality.

An indelible mark, made from the ochre of the Périgord Noir, whose exceptional character is highlighted by a unique piece in the region: The Mythological Cabinet. At Puymartin, Perseus meets Jean Bart, Artemis crosses paths with Count Ravez, and curious visitors weave stories of their own.

# HISTORY

Built in the second half of the **13th century**, the Château de Puymartin was originally a fortified stronghold that was destroyed during the Hundred Years' War. The current château was erected in the **15th century** on the ruins of this earlier structure. Its defensive purpose is still evident today in its façades, alongside its residential function. Indeed, this living space was decorated in the **17th century**: its walls and ceilings were adorned with numerous paintings and tapestries. The jewel of this décor is the mythological cabinet, whose walls are composed of eight panels painted in grisaille.

It was in the **19th century** that the château took on the form we know today. The owners of that time sought to highlight the estate's remarkable past without altering its essence, transforming it into their main residence equipped with modern comforts. A privileged testament to this era, the Marquise's apartments still provide a vivid glimpse into château life in the 19th century.

# THE VISIT

Since its founding, Puymartin has continuously adapted to the times. In this spirit, since 1972, its owners have been committed to bringing new life to their family château by opening it to the public, making numerous rooms accessible, creating new spaces, and organizing original events.

## *The Marquise's Apartments*

The Marquise's apartments, open to the public since 2018, consist of four rooms whose décor has remained faithful to that of the late 19th century. They offer visitors an immersive experience into the intimate life of the owners from that period.

## *The Mythological Cabinet Under Restoration*

This unique room in Périgord, classified as a Historic Monument, cannot accommodate as many visitors as we would like. To preserve it and give the public the opportunity to discover it, an interpretation room has been created.

## *The exhibition 'The World of the White Ladies'*

Inspired by the legend of the White Lady of Puymartin, the exhibition "The World of the White Ladies" invites visitors to immerse themselves in the mysterious world of these legendary figures, to understand their origins and the stories that surround them.

## *The room of Artemis*

An immersive space dedicated to the Greek goddess Artemis, this room aims to expand the visitor's imagination by linking the château's artworks with its surrounding environment.

## *The Outdoor Tour*

To complement the visit, an outdoor tour with explanatory plaques has been set up. While strolling through the park, visitors can discover the château's façades and their history.

# SCHEDULE FOR 2025

The restaurant la table de Puymartin  
bistronomic cuisine

"I took my knives and aprons, settled into this beautiful setting of greenery and stones, for a new culinary challenge. Simplicity takes shape, the product asserts itself, sometimes my mind wanders for more creativity, and the flavors take flight. Come to the counter, smell, look, be greedy and curious. Here, we cook for ourselves and for you, we have fun, we share what makes us passionate. We bridge the gap between earth and water, between water and fire, between love and friendship. A sweet moment for free cuisine."
